

**LEADERS IN LIGHTING MAST TECHNOLOGY**

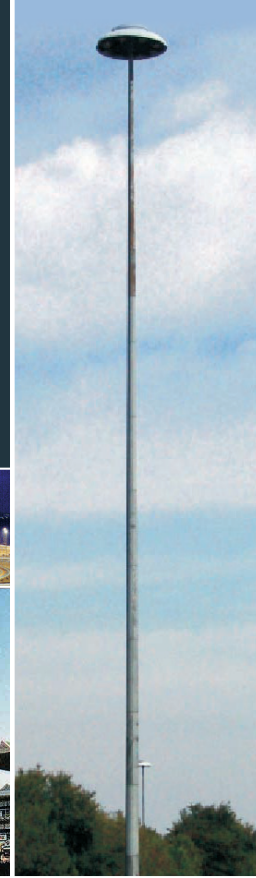

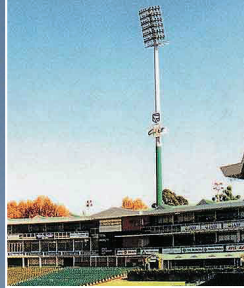

Street light poles

Midbow lighting masts

Abamax hydraulically liftable masts

Standard high masts

Stadium masts

Specialists in the design, supply and installation of lighting support structures

**Street light poles | Midbow lighting masts | Standard high masts  
Stadium masts | Abamax hydraulically liftable masts**

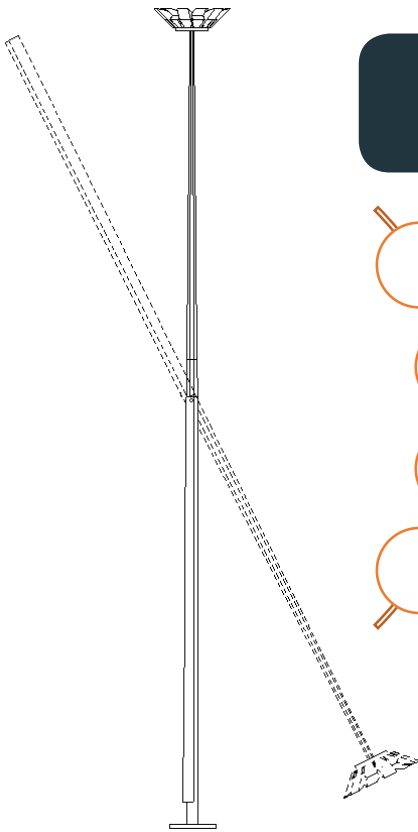

**Full mast kits, “ready to erect” including mast, electricals, lights and pre-cast foundations can be supplied**

Members of the South African Steel Institute

SABS ISO 9001 certified company

## midbow masts

Tubular mid-hinging masts from 12 – 18m

Octagonal mid-hinging masts from 20 – 25m

Masts allow up to 6 x 1000W lights or 0.8m<sup>2</sup> wind area

Terrain categories 2 or 3

## highbow masts

Monopole high mast lights from 15 – 40m

Abamax type allows hydraulic lowering of masts (20 – 40m)

Terrain categories 2 and 3, up to 10 x 1000W lights or 1.2m<sup>2</sup> wind area

Stadium masts 20 – 50m, 10-120 luminaires (1000w – 2000w)

All lighting masts conform to requirements of SANS 10225  
All masts are hot dipped galvanised to SANS 121-1461
